

Brighten your exterior this winter

Here at **phs** Greenleaf, we understand how important it is that your premises look inviting to customers throughout the year. During winter, it can be even more important to liven up your space. Whatever your tastes, our winter hanging basket options are ideal for injecting colour and interest into your space during the colder, darker months.

Why phs Greenleaf?

Full maintenance and replanting available

Matching troughs available in various colours

Award winning plant displays

Nationwide service

With over 25 years' experience, we install over 35,000 hanging baskets a year

Enhance your exterior

phs Greenleaf will work with you to choose hanging baskets that suit your environment and brand personality.

You won't have to lift a finger

A highly skilled horticultural team will undertake regular maintenance visits, ensuring your baskets always look their best.

With an extensive range of sustainably sourced plants, colours, and styles available to suit any space and budget.

phs Greenleaf will maintain the planting displays and manage the watering system throughout the seasons.

A sustainable choice

All **phs** Greenleaf basket liners are made from recyclable materials, including milk crates, and are recycled again at the end of the season. The baskets also boast an innovative design that reduces water loss

Any green waste from your peat-free hanging baskets and containers will be turned into biofuel energy. Helping **phs** Greenleaf save 136kg of CO₂ a year.

Our highly skilled team are responsible for all aspects of maintaining our hanging baskets, and offer a variety of services, including a replanting service to update your hanging baskets as the months get warmer and brighter. Automatic watering systems are available which will keep your display watered between visits ensuring longevity.
